PROFESSIONAL SUMMARY

Senior Accountant and finance operations professional with 10+ years of experience across real estate, tourism, and investment environments. Strong hands-on background in accounts receivable, accounts payable, treasury, bank reconciliation, month-end close support, financial reporting, customer/vendor reconciliation, expense control, payroll support, and ERP workflows. Differentiated by practical AI automation capability: building and improving real estate reservation, CRM, collection follow-up, reporting, and workflow tools that reduce manual work, improve control, and give management clearer operational visibility.

PROFESSIONAL EXPERIENCE

Accounting, Sales Operations & Automation Specialist Jun 2025 – Present

Elhossary Investment Group

- Process accounts receivable transactions and reconcile customer accounts for real estate operations.
- Prepare monthly financial statement inputs, including P&L and balance sheet schedules.
- Perform bank reconciliations and support monthly close activities with accurate account follow-up.
- Support sales-process control, sales-agent schemes, commission tracking, and operational reporting.
- Build and improve AI-assisted workflows for reservations, CRM/lead distribution, unit reports, payment offers, and collection follow-up.
- Translate operational requirements into practical tools that improve reporting speed, data accuracy, and management visibility.

General Accountant Jan 2023 – May 2025

ECC Group

- Processed accounts payable and accounts receivable transactions and reconciled vendor/customer accounts.
- Prepared monthly financial statements and accounting schedules for senior-accountant review.
- Assisted with payroll processing, employee expense reimbursements, invoice processing, and closing documentation.
- Maintained accurate accounting records and supported timely reporting during month-end activities.

Process Automation Developer Feb 2024 – Present

Freelance / Personal Projects

- Built business workflow tools using AI-assisted development, HTML, CSS, JavaScript, React, and automation scripting.
- Developed real estate reservation and CRM workflows for lead distribution, unit tracking, and sales coordination.
- Created reporting and process-automation tools to reduce manual follow-up, improve data visibility, and stabilize daily operations.

PROFESSIONAL EXPERIENCE (CONTINUED)

General Accountant / Treasury Accountant

Apr 2014 – Feb 2021

Regens Investment Tourism

- Managed treasury accounting, cash inflow/outflow tracking, and daily cash-control documentation.
- Controlled petty cash, expenses, and expense reports while maintaining accurate supporting records.
- Monitored account balances and payment status to keep accounting records up to date.
- Supported daily accounting entries, operational documentation, and payment follow-up activities.

SELECTED ACHIEVEMENTS

- Built and improved real estate reservation and CRM workflows supporting lead distribution, sales follow-up, unit tracking, and operational control.
- Automated repetitive Excel and reporting tasks, saving 10+ hours per month and improving reporting consistency.
- Streamlined invoice-processing workflows and reduced operational errors by 15%.
- Maintained accurate records for 50+ vendor accounts and improved payment-cycle efficiency.
- Supported month-end close, annual documentation, and management reporting through accurate filing, reconciliation, and follow-up output.

SELECTED AI & AUTOMATION PROJECTS

Real Estate Reservation & CRM Workflow

Lead distribution, unit reservation tracking, sales follow-up visibility, and CRM process control for real estate teams.

Finance & Collection Reporting Automation

Excel/PDF-based reporting workflows for collections, cheque follow-up, customer/unit data, and management summaries.

Smart Offer & Unit Inventory Reports

AI-assisted templates and reports for payment offers, unit availability, pricing views, and operational decision support.
